Irish Oak Timber Alternative Door with Combination Frame

Timber Alternative Doors

Period style doors ideal for new and old properties, designed specifically with timber in mind.

Choices "Alternative To Timber" door range, are traditional style doors utilising the benefits of modern materials. Expertly handcrafted with mechanically jointed midrails and mullions to create an authentic wooden appearance.

There are many hardware alternatives available including the traditional AV2 Heritage lock, which removes the need for a modern external lever to operate the the locking system.

The "Alternative To Timber" door range is manufactured in chamfered profiles (Kömmerling C70) and also available in sculptured profiles (Kömmerling O70) if requested.
